

OH&S MS Auditor Conversion (3 Days) IRCA Course number A17259

Overview

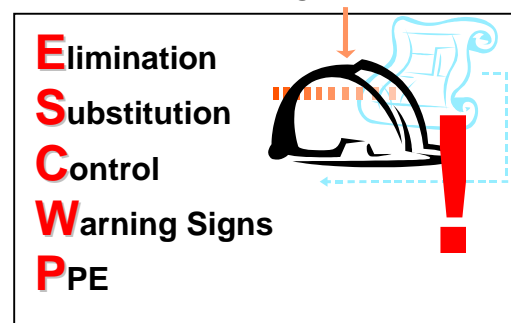

The IRCA Registered OH&SMS auditor conversion course provides students with the knowledge and skills required to assess the conformance of an organisation's Occupational Health and Safety Management Systems with OHSAS 18001 be it at an internal level, supplier assessment or independent 3rd Party level. Any Health & Safety Management System requires an effective audit by a competent OH & SMS Auditor, which requires a comprehensive understanding of risk assessment, risk management and improvement processes.

The course is aimed primarily at people who have audit experience and now wish to add the ability to audit Safety Management Systems to their overall audit capability.

Summary of Course Features

This IRCA Registered OHSAS 18001 Auditor Conversion Course is based on proven "accelerated learning" techniques, ensuring that the student is fully immersed in the subject from the start. "Accelerated Learning" uses all of the student's senses to ensure that knowledge and understanding are captured and developed quickly and effectively.

The course uses practical exercises, roleplays, trainer model scenarios and model guide answers to stimulate the trainee throughout the learning experience.

The course includes ongoing evaluation and feedback on trainee development and also includes an examination designed to test understanding.

Course Tutors

Our Auditor Courses are led by experienced and practicing Lead Auditors; this means that the training reflects current practice and draws on real life experience to maximise the benefit for the student.
